

Carbon Footprint Policy

Hannafin Contractors is committed to reduce its environmental impact where practicable. Carbon reducing measures will form an integral part of the overall company strategy and will help to improve operational performance and a reduction in potentially harmful emissions to land, water and air.

Our ultimate aim is for a 0% carbon balance to be achieved within a realistic and achievable period. Target dates and reduction levels will be set once the company have analysed all business activities and operations of work.

To help achieve carbon neutrality, the Company will;

- Comply with all current legislation, seeking to meet or better legislative targets.
- Minimise waste, promote recycling and the use of recycled products to help reduce the amount of waste sent to landfill.
- Ensure Sustainable sourcing prevails wherever possible through procurement.
- Installation of energy efficient, and therefore carbon reducing equipment throughout the Company premises.
- The assessment and procurement of fuel efficient vehicles and plant wherever practicable.

The policy clearly identifies the intent and procedures for achieving the Company's stated objectives in all aspects of its activities leading to improved environmental performance.
